Percentage - 84%

Interests

- Volleyball
- Badminton
- Cycling
- Swimming
- Aviation Enthusiast

SAGAR MALIK

Projects

STARGATEWAY
Platform   **:** J2EE
Duration   **:** July 2022 - September 2022   (2 Months)
GitHub Link **:** https://github.com/karankhamkar/happystay

Stargateway website helps customer to check the price and availability of the rooms based on the date and will be able to book the room in the hotel after signing in. There are two user accounts admin & customer. Admin is able to look at the details of the customers, booked and vacant rooms in the hotel. Admin can change any details on the web site. Admin has the access to add other admins to the system. We have used React, Spring boot and MySQL for this project.

WORD PHRASE ALIGNMENT
Duration   **:** July 2020 - June 2021 (11 Months)
GitHub Link **:** https://github.com/Sagar8Malik/Word-Phrase-Alignment

Word Phrase Alignment focuses on extracting translation information from parallel text and to determine which words in the source text correspond to which words in the target text. We removed noise through self written/designed Python script and cleaned the corpus. The cleaned corpus is translated in source text and then finally properly Aligned and translated.

Skills
